EXPERIENCE

IT Support Technician – CSU Warner College of Natural Resources	October 2025 – Current
--	------------------------

- Provide Tier 1/2 IT support across all five academic departments and eleven centers and units of CSU's Warner College of Natural Resources, serving over 2,300 students, faculty, and staff.
- Deploy, configure, and maintain Windows and macOS desktops, laptops, and mobile devices per departmental protocols, using standardized images in Microsoft Intune and SCCM, while maintaining hardware inventory records.
- Diagnose and resolve hardware, software, network connectivity (wired, wireless, and VPN), printing, and peripheral issues while supporting Microsoft 365 applications.
- Provide A/V support for classrooms, conference rooms, meetings, and presentations, including setup, configuration, troubleshooting, and user assistance.
- Track and document support requests through Freshservice ITSM, ensuring timely communication through ticket resolution, coordinating with internal IT teams when issues require escalation or specialized technical support.
- Educate faculty, staff, and students through direct technical support and clear written documentation, helping users understand university technologies and services.

IT Support Technician (Contract) – Independent, Fort Collins, CO	January 2023 – Current
---	------------------------

- Provide front-line Tier 1/2 technical support for small business clients, diagnosing and resolving hardware and software issues across desktops, laptops, and mobile devices.
- Install, configure, and maintain Windows, macOS, and Linux systems for end users, including device setup, software installation, system configuration, and troubleshooting.
- Diagnose and resolve network connectivity and peripheral issues, supporting wired and wireless IoT devices.
- Deliver on-site and remote technical support, communicating directly with clients to diagnose issues, explain solutions, and guide users through troubleshooting.

IT Technician – Front Range Internet Inc.	May 2022 – January 2023
--	-------------------------

- Operated help desk, providing technical support to end users and Windows and macOS support to staff.
- Terminated ethernet cabling and deployed wired and wireless access points to support network infrastructure.
- Maintained on-site data center equipment and tracked inventory, procurement, and lifecycle of company devices.
